# Who Did We See in Conference?

Cut the slits on the television so the paper strip below can weave through. Connect the strips at the bottom to make one long strip. On each square of the strip, draw pictures of the people speaking in General Conference. When the session is done, slide your pictures through the “television screen” and review who spoke/what they taught.

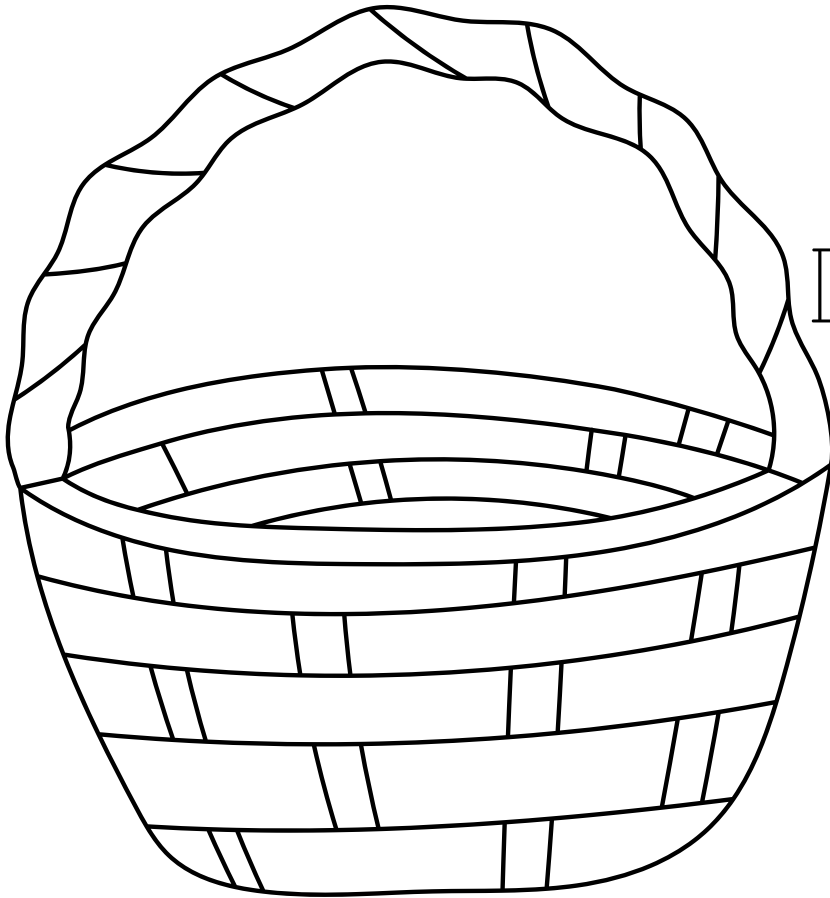

Glue the gray tabs onto the back of the next strip to make one long strip. Combine as many strips as needed.
